

Concealed Carry Training “Confidence”

This class is designed for the intermediate shooter already familiar with the nomenclature of their own personal handgun. The student should already be capable of safely loading, shooting, and manipulating his/her personal handgun and desires to improve the likelihood of prevailing in a deadly force encounter. We highly recommend our Introduction to Handgun Safety as a prerequisite to this class.

Instructional topics include:

- The four basic rules of firearms safety
- * Refresher of the seven fundamentals of accurate shooting
- Methods of concealing a handgun
- Drawing and re-holstering the handgun
- Movement on handgun presentation
- One hand drills (right and left)
- The standard defensive response
- Failure to stop drills
- Life-saving rituals

To receive the maximum benefits from the class, we require each student to provide the following:

- A mid-sized handgun with AT LEAST three magazines with a minimum of 6 round capacity
- Magazine pouches capable of holding 2 spare magazines
- A good quality strong side holster *If you are purchasing a holster prior to class, we recommend purchasing a holster SPECIFIC TO YOUR GUN. Please avoid the “Universal style / one size fits all” type holsters.
- 200 rounds of ammunition

This class is not designed for the use of revolvers

Course investment includes targets and reusable, souvenir SharpShooters USA eye and ear protection, if needed.

Students will receive a certificate of completion at the end of the course. This training certificate meets the requirements of most states outside of Georgia that require Concealed Carry training.
